COMPARE OUR PRICE TO THESE BRANDS

& CHECK THIS OUT TOO!

WE NOW HAVE A LOW COST GENERIC ALTERNATIVE TO VIAGRA® TABLETS!

Sildenafil, the active ingredient in Viagra®, is now available in a generic 20mg tablet, and it is **MUCH** cheaper than Viagra®.

Ex: Five 20mg tablets of Sildenafil is equivalent to one 100mg Viagra®.

Price: 50 Sildenafil 20mg (ten 100mg doses) **49⁸⁸**
VS. \$300 for ten Viagra® 100mg.

\$49⁸⁸

6 MONTH/12 MONTH EXTENDED SUPPLY GENERIC PROGRAM

We offer six month and even one-year supplies of popular generic medication for \$37 and \$70. Even if you're not in the neighborhood, we offer free shipping! Whether you've lost insurance, you're tired of expensive co-pays or need to provide prescription benefits for your employees, check out our Extended Supply Generic Drug Program where everyone realizes significant cost savings.

WHY ARE YOUR PRICES SO LOW AND THE BIG BOX STORE'S SO HIGH?

We get that question often! The answer is we price ALL of our generic drugs based on what it costs us to acquire them. Most chain pharmacies price their generics off of what the brand version costs; even if it only cost them pennies to acquire the generic! Example: 180 tablets of Singulair® 10mg retails for about \$1500 at any pharmacy. We sell 180 of the generic version Montelukast 10mg for \$37 while CVS sells the exact same thing for \$721. See how that works? If you didn't have insurance and your price dropped from \$1,500 to \$721 when you switched from brand to generic you would think you got a great deal, correct? Would you still think it was a great deal if you knew you paid \$721 for what only cost them around \$20?

WHAT ABOUT THOSE \$4 PROGRAMS?

They are all the classic retail game of bait and switch! Those stores try to get you in with their ever shrinking \$4 list. But get a generic drug not on the list and watch your wallet! **WE DON'T PLAY THOSE GAMES!** If we can buy a six month supply of any generic drug for less than \$24, it goes on our list and we sell it to you for \$37. It's that simple!

Example:

At CVS #180 Lisinopril 10mg = \$78 and #180 Clopidogrel 75mg = \$865 \$934 total.
Hopkinton Drug's price is \$37 and \$37 = \$74 Total *YOU SAVE \$860!*

***We are NOT an internet pharmacy or an E-Commerce site**
You will need to get a prescription from YOUR doctor, sent to the pharmacy.*
